

Listing of the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-15. (Canceled)

16. (Original) A system having a video display screen that provides video to a user, the system comprising at least one audio capturing device that captures audio input from a viewing region of the display screen and coupled to a control unit having speech recognition software that identifies one or more audio commands spoken by a user in the viewing region, the control unit invoking an adjustment of the orientation of the display screen based upon the identified audio commands received from the user.

17. (Original) The system of Claim 16, wherein each of the one or more audio commands are correlated to movement of the display screen in a pre-determined direction.

18-19. (Canceled)
